Operating Account Contributions

The LWML CID suggests that each society send in ten dollars (\$10.00) per member each year to the District Operating Account. The ten dollars includes the cost of Quarterlies, money allowed for delegates to the National Conventions and other Operating expenses. If extra Quarterlies are ordered (number over your membership) it is suggested that an additional six dollars and fifty cents (\$6.50) be sent for each additional subscription. ** If ten (10) or more additional subscriptions are sent to one address you may contribute five dollars (\$5.00) for each additional subscription.

1. Number of members you are sending money in for _____ @ \$10.00 per member _____

2. Number of Quarterlies ordered over your current membership _____ @ \$6.50 / **\$5.00 each _____
 (Your Organization or Zone President can provide you with the number of Quarterlies your Organization ordered.)

If you send in portions of your Operating money throughout the year you may include money for extra subscriptions with your final remit.

3. **TOTAL OPERATING ACCOUNT CONTRIBUTION** (total lines 1 & 2) _____

Your check number _____

Operating account funds may be remitted anytime during the fiscal year; many societies send their contributions during October since that is LWML month. Operating contributions **must be received no later than March 31st** of the current fiscal year. Once the number of Quarterlies are turned in at the beginning of the fiscal year they **cannot be decreased until the beginning of the next fiscal year**, they may **be increased throughout the year by notifying your Zone President.**
